

MacCrimmon Stud

proudly serves as Maryland's only Highland Pony Stud, offering breeding, training & sales of rare purebred Highland Ponies to select homes.

Beautifully solid, sane and stable, Highland Ponies are great all-rounders, appropriate for all-sized riders in a variety of disciplines.

Native to Scotland, this hardy breed is endangered, with fewer than 6,000 across the globe and less than 100 in North America.

Contact us for information about breeding, young stock on the ground and foals in utero.
