

“I find *The Equiery* one of the most useful magazines to find out what services are out there, who is doing what, schedules of events, horses for sale, and more. I have looked forward reading *The Equiery* for the last 21 years. It really is an all around information center for all breeds and disciplines. I have been an advertiser with the magazine for most of it’s lifetime. It is easy now with the website and the facebook page too, it is almost like live streaming.”
